

PARTNERING WITH TOWNSHIPS

TOWNSHIP OFFICIALS OF ILLINOIS RISK MANAGEMENT ASSOCIATION **RISK REMINDER**

Accidents Cost *EVERYONE*

On-the-job accidents and injuries affect everyone in the company. Just looking at dollars and cents, here's what accidents can mean for the company:

- Lower company productivity
- Lower profits, fewer bonuses, layoffs
- Higher medical expenses
- Factory closures

But that's not the whole story. Accidents often take a personal toll, causing:

- Stress on the job
- Loss of hopes and dreams as a result of disabling accidents
- Chronic pain and disability
- Death of a loved one

You do your part to keep the high cost of accidents down when you:

- Take extra time and care
- Use the right equipment
- Follow safe work practices
- Encourage others to practice safety
